## *Matthew Fontaine Maury Oceanographic Library*

With more than 400,000 volumes of information, the Matthew Fontaine Maury Oceanographic Library, located at the Naval Oceanographic Office at Stennis Space Center, Mississippi, contains the world's foremost military collection of oceanographic materials. From modern media to handwritten 18th-century ships' logs, the library is noted for the technical diversity of its holdings. It is a valuable resource for Navy, government, academic and industry.

Major collections, including journals, maps, charts, tide tables, books, technical reports, conference proceedings and translations, are in the field of oceanography with overlap into ocean engineering and marine technology. Other major areas represented include marine physics, international hydrography, chemistry, geology, biology, underwater acoustics, signal processing, geophysics, computer science and mapping. The library also carries titles on submersibles, meteorology, marine geology, technology at sea and biological, physical and dynamic oceanography.

The Maury Library is enriched by its collection of technical journals. The collection is comprised of more than 200 titles that provide patrons with the latest validated information on a variety of scientific disciplines and applications. More than 100 of these titles are available in electronic format. Great pride is taken in the depth of this collection, which is the result of years of effort in serials maintenance.

All materials are entered into the Scientific and Technical Information Library Automation System (STILAS). Users may view the library catalog and check the availability of materials on the World Wide Web at <http://library.navo.navy.mil>.

The Maury Library is open Monday through Friday (closed federal holidays) 7:30 a.m. to 3:30 p.m. The Maury Library serves the Navy, Department of Defense, federal agencies, universities and Stennis Space Center tenants. It participates in an active interlibrary loan program for those outside the SSC community. For more information, call the Maury Library circulation desk at 228.688.4597.

*Contact the Circulation/Reference Desk at 228.688.4597 for information regarding connecting to the system or circulation. For more information, please contact NAVOCEANO Public Affairs at 228.688.5649 or visit <https://www.navo.navy.mil>.*
